

UNIT 01 · LOOK & EXPLAIN

Writing and city life: reading urban evidence

Mesopotamian city and hinterland

Geographical schematic: river relationships, not exact locations or boundaries

Tigris lies east of Euphrates; rivers flow towards their southern confluence. Features are schematic.

Use the labels and worked example to explain the idea. The diagram is schematic unless a scale is given.

Look, annotate and explain

Identify the parts or values that matter. Add a label or annotation to show a connection. Explain how the diagram supports the worked example, then use it with the practice on the next page.
