

UNIT 02 · LOOK & EXPLAIN

Elections and representation: votes into seats

Plurality is different from a majority

Fictional result: A 42%, B 36%, C 22%; percentages total 100

A has the largest share and therefore a plurality; 42% does not form a majority.

Use the labels and worked example to explain the idea. The diagram is schematic unless a scale is given.

Look, annotate and explain

Identify the parts or values that matter. Add a label or annotation to show a connection. Explain how the diagram supports the worked example, then use it with the practice on the next page.
